REPORT OF THE TRUSTEES TO THE INVESTORS OF REPUBLIC WEALTH TRUST

In our independent opinion as Trustee, the Manager has, in all material respects, managed the Fund during the period, in accordance with the Unit Trust and Mutual Funds Regulations, 2001, (L.I 1695) and the limitations imposed on the investment and borrowing powers set out in the Trust Deed.

For the year 1st January 2023 to 31st December 2023, we have held the assets for the Republic Wealth Trust, including securities and income that accrue thereof, to the order of the Fund and facilitated the transfer, exchange or delivery in accordance with the instructions received from the Fund manager.

Yours faithfully,

For: Guaranty Trust Bank (Ghana) Limited

Authorized Signatory

Authorized Signatory

FUND MANAGER'S REPORT

FOR THE YEAR ENDED 31 DECEMBER 2023

REPUBLIC WEALTH TRUST

A. Economic Overview

The world economy is gradually resuming the path of a steady economic growth, despite shocks from major macroeconomic indicators. With inflation falling steadily than expected coupled with restrictive monetary policy, expectations of a gradual recovery is anticipated.

The global economic shock worsened Ghana's fiscal and debt situation as a result of rising domestic borrowing costs. These adverse developments exposed Ghana to a surge in inflation, high exchange rate depreciation and increased stress on the financing of Ghana's budget. Efforts by government are expected to allow Ghana to gradually reduce its Debt-to-GDP metrics towards sustainable levels.

Highlight of Key Economic Indicators

Headline inflation recorded a sharp decline year-on-year from 54.1% in December 2022 to 23.20% as at December 2023. The government however expects inflation to gravitate towards the target band of 8% +/-2% within a 4-year period.

The Ghanaian Cedi experienced relative exchange rate stability across the major trading currencies. The cedi cumulatively depreciated against the US dollar, Pound and Euro by 27.80%, 31.90% and 30.30% respectively.

The 91-day, 182-day and 364-day Treasury bill rates recorded downward trends to positions of 29.39%, 31.70% and 32.97% respectively as against the prior year's positions of 35.48%, 36.23% and 36.06%. The secondary market saw upward adjustments in yields in the second quarter of 2023. The 5 and 6 year GOG Bonds saw the yields trading on the secondary market at an average of 21.36% and 14.73% respectively. The monetary policy rate inched up from 27.00% in December 2022 to 30% as at the end of December 2023.

In 2023, the stock market experienced a resurgence, posting a gain of 28% for the GSE Composite Index (GSE-CI) compared to the sluggish performance (-12%) in the 2022 period. Investors' appetite for equities resulted in the GSE CI recording an impressive performance, rebounding from its regressed position.

Domestic Debt Exchange Program (DDEP) & Mark to Market (MTM) Valuation

Following the announcement of the DDEP in December 2022 through to its implementation from February 2023, New bonds were allocated to Collective Investment Schemes (CISs) at a coupon of 10% for both the 2027 and 2028 bonds. Trading on the new bonds were less attractive (compared to rates on the treasury bills) leading to regular market

FUND MANAGER'S REPORT

FOR THE YEAR ENDED DECEMBER 2023

fluctuations on pricing. This impacted on the valuation of the Fund using the mark-to-market (MTM) valuation adopted per a SEC directive.

Republic Wealth Trust Sub-Fund

The directive from the Securities and Exchange Commission (SEC) in October 2022, on the use of Fair Value through other Comprehensive Income Valuation Method in the valuation of Clients' investment assets/securities and portfolios ignited an immediate response from unitholders. The MTM implementation depressed the unit prices owing to the high discounts at which issued bonds were being traded on the secondary market. Investors reacted by placing requests to liquidate their investment portfolios and/or redeem their units from the various CISs. In order to curb the growing redemption requests due primarily to further deepening of unit prices, there was the need to create a Sub-Fund to provide cushioning to investors by investing new deposits into financial instruments that are less volatile compared to GOG Bonds. The goal/objective for the setup was to ring-fence returns on new deposits.

The Fund Manager considers the Sub-Funds creation an avenue to safeguard the best interest of unitholders, and shield 'new deposits and maturing investments' from the adverse effects of bond price volatilities. This will help to strengthen the manager's responsibility to manage the assets of the unit trust on a day-to-

day basis by selecting the investments to be made on behalf of the trust in the best interest of unit holders. Your Fund, the Republic Wealth Trust is currently operating a Sub-Fund which recorded tremendous growth in the year 2023.

B. Fund Performance

In 2023, the Republic Wealth Trust navigated a challenging yet opportunity-filled environment. Despite bond price volatilities, interest rate fluctuations and global economic uncertainties, the fund surmounted to close the year with a net fund value of GHS8.69million, a growth of 23.61% over the prior year AUM of GHS7.03million.

The Fund demonstrated the resilience of the deployed investment strategy by generating a yield of 14.54% and 5.78% for Republic Wealth Trust SC and Republic Wealth Trust respectively to close the reporting period. The performance achieved was birthed out of active rebalancing strategies employed in the reporting period. The number of unitholders at the close of the year was 931.

C. Portfolio Review and Asset Mix

In pursuit of sustaining gains achieved in the prior year, the portfolio was structured to ensure diversification, aiming to mitigate risk while optimizing returns. The fund took a cautious approach by carefully managing the duration of the portfolio to minimize exposure to interest rate

fluctuations.

As at December 2023, investments in GOG securities accounted for 59.26% of the fund's portfolio. Allocations to Fixed Deposits and local government bills were 23.54% and 17.19% respectively. Cash & Cash Equivalents represented 0.01% of the portfolio.

With respect to the Republic Wealth Trust SC, the portfolio's allocation was as follows; Fixed Deposit pegged at 34.38%, T- Bills at 64.28%, and Cash & Cash Equivalents of 1.34%. The over-arching objective was to add a degree of yield enhancement through the short-dated Sovereign Securities that averaged returns of 27.35% and 29.14% for the 91 and 182 day respectively in the year under review, with a fair balance of fixed deposits.

D. Fund Strategy and Outlook for 2024

In 2023, the fund's performance benefited from its diversified structure and disciplined approach to risk management, despite the fixed income market experiencing a series of volatilities arising from the MTM and DDEP implementations. Looking ahead, market uncertainty may persist, with further interest rate movements likely.

The strategy going into 2024 is to maintain a balanced approach, focusing on high-quality securities while exploring opportunities in segments that offer attractive risk-adjusted returns. The permissible allocations to Corporate

Bonds and the Alternative Investments space would be further explored for potential appreciable returns.

The year 2024, being an election year is expected to introduce some level of investor inertia and caution. We shall continue to keenly monitor the market and take advantage of opportunities while sustaining our efforts to moderate risk factors that can adversely affect your investments.

We are extremely grateful to you for the unflinching support and patronage of this product during the turbulent times. Your good faith deserves a more sustained return on your investments and we aim to achieve same. You are also encouraged to set up standing orders and direct debits with contributions going directly into the sub fund account. We assure you of our commitment to manage your funds towards growth to the best of our abilities, and within allowable regulatory mandates, for our mutual benefit.

Our cherished unit holders, as always, it is possible together!

We thank you for your custom.

INDEPENDENT AUDITOR'S REPORT

TO THE UNIT HOLDERS OF REPUBLIC WEALTH TRUST

Opinion

We have audited the financial statements of Republic Wealth Trust which comprise the statement of assets and liabilities as at December 31, 2023, and the income and distribution account and statement of movement in net assets and issued units for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and explanatory notes as set out on pages 19 to 26.

In our opinion, the financial statements give a true and fair view of the financial position of Republic Wealth Trust as at December 31, 2023 and of its financial performance and its cash flows for the year then ended and are in accordance with International Financial Reporting Standards and in the manner required by Unit Trust and Mutual Funds Regulations, 2001, (L.I. 1695) and the Companies Act, 2019 (Act 992).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We are independent of the Trust in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that

the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of the Fund Manager for the Financial Statements

The Manager is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards, the requirements of the Companies Act, 2019 (Act 992) and the Unit Trusts and Mutual Funds Regulations, 2001 (L.I. 1695) and for such internal control as the Manager determine is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Fund Manager is responsible for assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Fund Manager either intends to liquidate the Trust or to cease operations, or has no realistic alternative but to do so. The Trustees are responsible for overseeing the Trusts financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

INDEPENDENT AUDITOR'S REPORT

TO THE UNIT HOLDERS OF REPUBLIC WEALTH TRUST

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Trustees.
- Conclude on the appropriateness of the Trustee's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Trust's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Trust to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Trustees regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

INDEPENDENT AUDITOR'S REPORT

TO THE UNIT HOLDERS OF REPUBLIC WEALTH TRUST

Key Audit Matters

In accordance with ISAs, this part of our report is intended to describe the matters communicated with those charged with governance that we have determined, in our professional judgement, were most significant in the audit of the financial statements. We have determined that, there are no matters to report under key audit matters.

Report on Other Legal and Regulatory Requirements

The Companies Act, 2019, (Act 992) requires that in carrying out our audit we consider and report to you on the following matters. We confirm that:

- We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.
- In our opinion proper books of accounts have been kept by the Trust, so far as appears from our examination of those books, and
- The Trust's Statement of Assets and Liabilities and Income and Distribution Account are in agreement with the books of accounts.

The engagement partner on the audit resulting in this Independent Auditor's Report is **Gilbert Adjetey Lomofio (ICAG/P/1417)**
